# Exclusive Heat Treated Wood Doors

Remarkable exterior  
doors backed by  
an extraordinary  
Lifetime Warranty.

505-34-A-P03  
Custom Sidelights & Transom  
Heat Treated Maple  
Durango Finish

- No overhang required
- Warranty extends through original owner
- Finished doors up to 4 by 10 feet are fully guaranteed

- Includes most standard and custom door styles
- Requires minimum interior door quantity

Until today, exterior doors could not stand up to the elements without an overhang. Craftsmen in Wood announces a remarkable new custom exterior door that can be guaranteed.

Made from proprietary heat treated wood, this door does not absorb water, expand, contract, or rot. And this includes stiles, rails, transoms, sidelights, and jambs.

Builders can now design without the limitations of protective overhangs or warranty worries. And, Craftsmen in Wood can offer an extraordinary Lifetime Warranty on full house door packages.

Interior *and* exterior doors now with the same beauty, style, *and* longevity. Custom exterior doors will never be the same. When you see and touch, you'll agree.

# Custom Pocket Door Systems

When it comes to ease of operation and space efficiency, nothing matches the versatility of our pocket door systems.

## Pocket Track & Frame Specifications

- High strength track & roller system with capacity to support up to 325 lb. doors.
- 1-1/2" Structural tubular steel frame.
- Pocket bumper to cushion the door when opening.
- Adjustable floor guide to help door track while opening/closing.
- All Pocket Frames are painted black.
- Available with arched jambs to simulate an arched door.
- Singles, pairs, doubles, double pairs, triples & triple pairs are available.
- Every system is custom built per order.
- Any door size up to 4'0" wide and/or 10'0" in height.
- Doors are constructed with the top rail & 1-stile 3/4" wider for even reveal when the door is closed.
- Wider frame throat for raised moulding doors.

## Soft Open & Close Pocket Track Option

- Silent System damping that provides a feel of added luxury and convenience.
- The fully concealed Silent System self closing/opening feature carefully cushions door movement in complete silence.
- Self-Leveling design allows for even distribution of load for maximum performance & durability.
- Available on single doors & pair doors.

## Wood Types

Craftsmen in Wood Manufacturing specializes in the following wood types:

- Premium Knotty Alder
- Rustic Knotty Alder
- Select Alder
- Clear Alder
- Mesquite
- Vertical Grain Douglas Fir
- Paint Grade
- Genuine Mahogany
- Mahogany
- Walnut
- Knotty Walnut
- Cherry
- Character Cherry
- White Oak
- Character White Oak
- Quarter Sawn White Oak
- Rift Sawn White Oak

In addition, we work with a variety of other woods, please call for availability.

## Finish

Craftsmen in Wood has developed a vast selection of hand rubbed finishes that add character and charm.

These finishes have hand glazing and burnishing to promote subtle shades that normally occur over the years. We work with a variety of finish coats including wax, oil, and others. All exterior door finishes are in oil for not only beauty but for durability.

# Finish & Distress

## Distress

**LIGHT DISTRESS**  
Eased edges and random nicks.

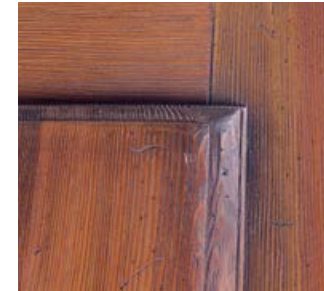

**MEDIUM DISTRESS**  
Light distress plus scratches, dents, worn surfaces, and worm holes.

**HEAVY DISTRESS**  
Greater degree of medium distress with added worm holes.

**EXTRA HEAVY DISTRESS**  
Heavy distress with deeper gouges, marks and scars. Small sections are wirebrushed and torched.

**WIREBRUSH DISTRESS**  
Removes the soft grain. (Shown with medium distress.)

**ANTIQUE DISTRESS**  
Simulates a hand-planed surface with random nicks.

**EUROPEAN DISTRESS**  
Heavy distress plus hand scrapings with chatter marks.

**OLD WORLD DISTRESS**  
Hand scrapped with chatter marks, worn edges, chisel marks and scars.

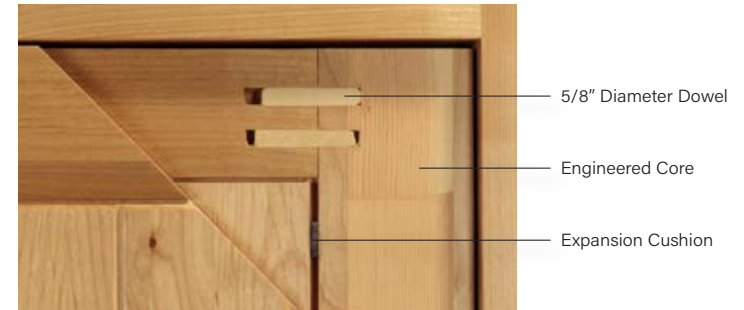

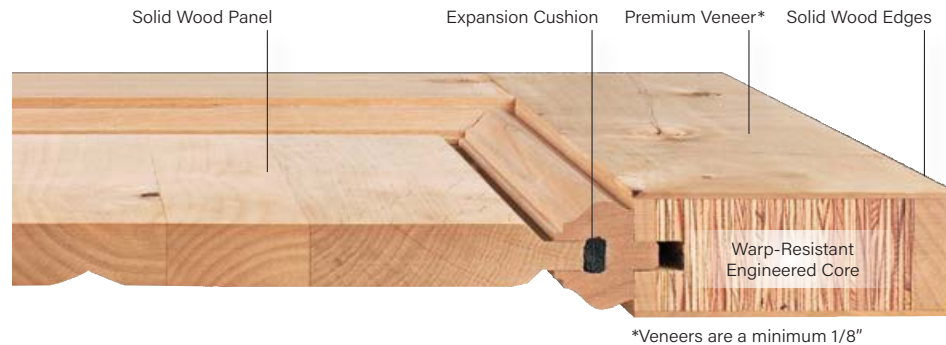

**RESAWN DISTRESS**  
Lightly textured with cross-grained saw marks.

## Construction

The beauty of a door should be measured not only by its looks, but how it stands the test of time. Unlike single-piece or two-piece laminated stiles that have a tendency to warp, twist and bow; Craftsmen in Wood doors are constructed with engineered stiles for added stability.

All doors are mortise and tenon, PLUS dowel construction.

## Prehang

All Craftsmen in Wood doors are available prehung. Prehang includes:

- Coordinating jambs
- Square commercial grade hinges
- Flushbolts, ball/roller catches, thresholds, etc.
- Custom clearances (therefore no need to cut off the bottom of any doors)

## Fire Doors

Designed to match all interior door models. Available in all standard wood species.

All sizes up to 3'6" wide by 8'0" in height.

20 Minute Rating:

- Rated for neutral pressure
- Available in any arch type
- Supplied in a wood True Rabbet jamb

60 Minute & 90 Minute Ratings:

- Classified as category B / positive pressure
- Supplied with metal jamb

## Swing Diagram

## Sizes

Thickness:

Interior doors are a standard 1-3/4" thick.  
Exterior doors are 1-3/4", 2-1/4", 3" thick,  
or to your specifications.

Height:

Any door height per your specifications.  
Doors up to 10'0" are under warranty.

Width:

Any door width per your specifications.  
Doors up to 4'0" are under warranty.
